Strategic Planning - Vision

The Booker School is a learning community connected to its natural environment, where children's diverse and individual abilities are nurtured, empowered and challenged. Our students experience joyful learning, engage as global citizens and take action in their local communities.

Strategic Planning - The Mission

The Booker School empowers, challenges and supports students as individuals to engage as internationally-minded citizens through a meaningful educational experience within a culture of open-mindedness and acceptance.

Strategic Planning - Core Values (Enduring beliefs)

Because **The Booker School...**

- values **creativity and innovation**, we foster opportunities for students to explore interests and skills while developing a love of learning.
- values **safe and supportive learning spaces**, we challenge and support each other to take risks and develop as learners with a growth mindset.
- values **students' individuality**, we respect one another and engage in reflective practices to develop self-awareness, agency and voice.
- values **a meaningful educational program**, we support our students within small class sizes to become flexible, active, and empowered inquirers through transdisciplinary contexts.
- values **our local and global community**, we engage and collaborate with members of the immediate and wider communities to embrace the benefits of building connections.
- value **student well-being**, we communicate openly with students and families with the child at the centre.

Motto

Think... Act... Become.
